

ANTHONY L. NUFER

Tony Nufer is the Senior Program Manager for Command, Control, Communications, Computers, and Intelligence (C4I) for CSC's Navy Marine Corps Technology Center supporting SPAWAR Systems Center Pacific (SSC Pacific) and Joint Program Executive Office Joint Tactical Radio Systems (JPEO JTRS). CSC employees within the C4I organization provide electronics laboratory; ship, submarine, and aircraft test and evaluation; in-service engineering; training, and acquisition management for the U.S. Navy and allied forces combat and communications systems. Tony has led and managed the NMCTC C4I programs for six years with a current contract account of approximately \$50 million dollars.

Prior to joining CSC, Tony was a Vice President for Business Development for WFI Government Services and Anteon Corporation. He began his post military career at Anteon, initially as Assistant Program Manager for submarine communications engineering at SSC Pacific and Program Manager for information technology and environmental GSA contract task orders. Tony served twenty-three years in the Navy, first as a Torpedoman and as a Surface Warfare Officer with several operations and combat systems assignments aboard ships, staffs, and ashore. He has a B.S. in Oceanography from the University of Washington, a M.B.A. from the University of La Verne and is a certified Project Management Professional. He is the Immediate Past President of the San Diego Military Advisory Council, a Director on the Board of the San Diego Chapter National Defense Industrial Association, and a 2009 Top 100 as recognized by the San Diego Daily Transcript. Tony is an avid automotive enthusiast and participant.
